plus tour of the Silicon Valley Advanced Water Purification Center**

Wednesday, May 1st 11:30-1:30

4190 Zanker Road, San Jose, CA 95134

RSVP by Evite <http://evite.me/8uDXv4UT9t>

or 408-630-3127

\$25 per person

Silicon Valley Advanced Purification Center is an award-winning facility using advanced technologies to purify secondary treated waste water and provide clean high-quality water through processes like microfiltration, reverse osmosis and ultraviolet light.

The result is 8 million gallons a day of highly purified water that is expected to match California drinking water quality standards.

Join us for a tour of the largest plant of its kind in Northern California, and a showcase of how water reuse will grow as a drought-proof, environmentally friendly water supply in the coming years.

- For safety purposes, sturdy **closed-toe shoes are required** as this is a walking tour of a working plant.
- High heels and sandals are not permitted.
- Please check the weather and dress appropriately for both outdoor/ indoor setting. Light rain will **not** cancel walking tour.
- **Failure to comply with protocol will prohibit one's participation in the tour.**
- Please **Carpool** as parking is extremely limited.
